

## Software Developer

**Number of Posts:** 1

**Contract Type:** Full time - Permanent

### Company Description

SMC is a manufacturing company providing products and services to a wide range of clients in the marine, Oil and Gas industries. We have through our experience with a wide and varied client base been able to develop market leading products. Our systems can be found in operation worldwide with an ever-growing install base.

SMC has a significant focus in developing and improving our systems and instruments. We are a company that continuously strives to innovate and improve and are looking for ways of being the best in our field

### Work description

SMC is recruiting a Software Developer for our software solutions in C#. The software is compiled for both PC and Linux environments and are based .net. The software products are used to display, process, and configure data from a range of instruments mainly onboard vessels.

We believe that you have relevant experience in C# and HTML development and to work independently on various projects. We offer you a stimulating position within a small business organisation where you will together with your colleagues be responsible to drive the projects forward.

The ambition of the group is high and together you will work for achieving great results!

### Wanted Qualifications

- At least 3 years' experience of .net /C# programming
- HTML coding
- Being able to work independently developing complex software solutions
- Knowledge in SQL databases

### Training provided

Yes

### Any assistance with accommodation/relocation

Yes – to be discussed during the interview

### Salary

**Eur 30,000 – Eur 50,000** per year depending on your experience.

### How will the interviews be held

### To apply
